Objective

I seek challenging opportunities where I can fully use my skills for the success of the organization.

Education

- **Govt.Polytechnic College** 2021
Diploma in computer science
70
- **Avanathi Research and Technological Academy** 2025
BTech in computer science
Pursuing

Skills

- HTML5
- CSS
- SQL
- Java
- Python
- Business Understanding
- Leadership
- Data structures and Algorithms
- Machine learning

Projects

- **Real-time Face Detection with python & openCV**
It is deep learning project, we developed a model for real-time human face recognition with python and opencv. We discussed about Face detection, Cascade classifier, and Haar features, and finally how to use pre-trained model to detect human face in real-time.
- **NBA(National Basketball Association) Data Analysis project**
Data Cleaning, Transformation, Visualisation and Analyse the NBA Data set by using python libraries like Pandas, numpy,matplotlib and seaborn.

Personal Details

- Date of Birth : 05/05/2001
- Nationality : Indian
- Gender : Male

Certifications

- Python Internship Certified by Pantech solutions
- Deep Learning using python Bootcamp certified by Devtown
